Spray Green of Palatine, LLC specializes in Lawn Care that focuses on Organic and Organic based fertilizing products that achieve superior results over some of the chemical based fertilizers on the market. Darroll and Gia Miller, owners of Spray Green of Palatine, LLC established the business because of the concern they had with fertilizing their yard with the kids so active in the front yard and the dogs so active in the backyard. Now homeowners have a choice to utilize Spray Green's proprietary formula and send their kids out to play any time. We minimize the amount of chemicals used for weed control and always communicate with the homeowner when utilized. As a community we are starting to recycle, bring our own bags grocery shopping, buy energy efficient appliances and conserve resources where we can and yet, as a nation we apply 6 times more chemicals on our yards than do farmers in the United States. Our company is not out to save the world or push an environmental view. We are simply providing an alternative for people with the same type of concerns we had when fertilizing our own yard. If you will give us a year we will show you the results that we can provide. You can contact us at 847-533-3755 or at our website at www.spraygreen-illinois.com. Recently, we have also added Lawn Maintenance to our business and have a number of homeowners already signed up for 2011. We would like to add 20-25 more lawns to our service this year. We are looking for small businesses to trust us with their lawn care needs. Please give us a call. We are very competitive! Less Chemicals, More Green.
